

A photograph of a construction site at sunset. The sky is a mix of orange, yellow, and blue with scattered clouds. In the foreground, two construction workers in hard hats are silhouetted against the bright light of the setting sun. They are standing on a complex network of metal scaffolding that surrounds a building under construction. The sun is low on the horizon, creating a strong lens flare effect across the middle of the image.

CONSULTNET

**Delivering expertise and empowering performance for the
Engineering, Procurement + Construction industry**

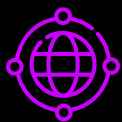

What Sets Us Apart

For over 25 years, ConsultNet has supported organizations in the Engineering, Procurement + Construction (EPC) industry by building engineering and project delivery teams that keep large-scale infrastructure and capital projects on track. We understand the complex coordination required across disciplines, vendors, and timelines, especially as the industry faces growing pressure to meet global energy demand and advance electrification initiatives.

That's why we provide experienced professionals across engineering design, project controls, procurement, construction management, and commissioning. Our talent integrates quickly to reduce delays, improve resource planning, and help accelerate project execution. And we do it fast - many of our clients go from **interview to hire in just 7 days**.

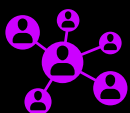

Highly skilled engineering experts for mission-critical initiatives.

Worldwide network of specialized recruiters to ensure rapid, scalable, and precise talent sourcing.

25+ years of proven success embedding advanced engineering + tech professionals into high-impact teams.

Onshore and nearshore teams, with access to top tech talent from our Mexico-based center at 40–60% lower cost than local rates.
