

CONSULTNET

Delivering expertise and empowering
engineering performance for the
Energy and Oil + Gas industry

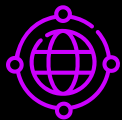

What Sets Us Apart

For over 25 years, ConsultNet has partnered with companies in the energy and oil + gas industry to build specialized engineering and technical teams that drive success across every stage of the project lifecycle. From initial feasibility and design through construction, commissioning, and operations.

As the energy sector works to meet rising demand and accelerate electrification, we supply skilled professionals across upstream, midstream, downstream, and power generation. Our talent includes electrical, mechanical, process, instrumentation, controls, and project management experts who integrate quickly to support plant upgrades, pipeline construction, grid expansion, and energy transition projects. And we do it fast - many of our clients go from **interview to hire in just 7 days**.

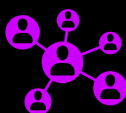

Highly skilled engineering experts for mission-critical initiatives.

Worldwide network of specialized recruiters to ensure rapid, scalable, and precise talent sourcing.

25+ years of proven success embedding advanced engineering + tech professionals into high-impact teams.

Onshore and nearshore teams, with access to top tech talent from our Mexico-based center at 40–60% lower cost than local rates.
