

CONSULTNET

Delivering expertise and empowering
engineering performance for the
Telecommunications industry

What Sets Us Apart

For over 25 years, ConsultNet has helped companies in the telecommunications space build specialized engineering teams that keep complex projects moving and drive innovation. From expanding 5G networks and fiber optic deployments to the integration of cloud and edge computing solutions.

That's why we provide skilled professionals with expertise in network engineering, RF design, fiber optics, software development, and systems integration. Our talent integrates quickly to support everything from network planning and deployment to operations and optimization. And we do it fast - many of our clients go from **interview to hire in just 7 days.**

Highly skilled engineering experts for mission-critical initiatives.

Worldwide network of specialized recruiters to ensure rapid, scalable, and precise talent sourcing.

25+ years of proven success embedding advanced engineering + tech professionals into high-impact teams.

Onshore and nearshore teams, with access to top tech talent from our Mexico-based center at 40–60% lower cost than local rates.

BUILDING SKILLED TEAMS THROUGH OUR MANAGED TALENT PROGRAM (MTP)

MTP is a differentiated delivery model that combines the best attributes from the four traditional delivery models clients may utilize.

Our MTP enables clients to drive fast results through a scalable solution to build high quality, governed teams.
